Past Events

Beach Streets Midtown

Last Saturday, Beach Streets Midtown took place on Anaheim Street between PCH and Orange. It was beautiful day, and about 30,000 people participated in the event. Thank you to the organizers, volunteers, businesses and residents who helped make this event a huge success. You can view more pictures from the event on the [Beach Streets Facebook Page](#). We are expecting another Beach Streets event to take place early next year, and we will keep you updated when a location gets announced.

Fourth District Aquarium Night

Nearly 300 people attended the Fourth District Aquarium Night on Monday. Everyone was able to enjoy the various exhibits at this famous aquarium for free. I wanted to take the time to thank the Aquarium of Pacific and everyone who attended the event. I cannot wait to host it again next year!

Airport Advisory Commission Meeting

Yesterday, I stopped by the Airport Advisory Commission meeting to hear the report from the FAA on the SoCal Metroplex. The project is part of FAA's nationwide initiative to improve air traffic efficiency and safety, and it was just implemented for air space in the vicinity of the Long Beach Airport last week. It appears from the report there will be very little change for the approach to Main Runway 12/30 over Los Altos and Artcraft Manor.

Glen Martin, FAA Western-Pacific Regional Administrator, delivering the Metroplex presentation

Brewitt Library Improvements

Yesterday, four new small window panes were installed at the Brewitt Library to replace the graffiti etched glass. The new window glass completes a series of improvements at Brewitt that started a year ago. These improvements have included plumbing, irrigation and shrubs in the front planter, irrigation and new trees in the sidewalk tree wells, new parking lot railing, repainting of the ADA parking space and replacement of large window panes.

As part of the Healthy Hearths™ initiative, the South Coast Air Quality Management District (SCAQMD) is asking residents to participate in its "Check Before You Burn" program to help improve wintertime air quality by not burning wood in their fireplaces when unhealthy air quality is forecast. Under the program, SCAQMD will issue mandatory no-burn alerts from November 1 through the end of February for specific areas where fine particulates are forecast to reach unhealthy levels. Check Before You Burn program can be viewed [here](#). Parking Issues and Holiday Schedule

Parking issues are some of the most frequent requests our office gets. If you are having a problem or would like to report a violation please call the LBPD Non-emergency phone number: 562-435-6711. They will dispatch a Parking Enforcement Officer during business hours and an LBPD Officer after business hours. If there is an ongoing issue or concern please contact our [office](#), and we will reach out to Parking Enforcement. Please visit the City's [website](#) to learn more about parking services.

Please Note: Street Sweeping parking restrictions will NOT be enforced on Thanksgiving Day (11/24) and the day after Thanksgiving (11/25). In addition, parking meters will be exempt or not enforced on Thanksgiving Day. Red, white and blue curbs are always enforced, even on holidays.

Cambodian Town Mural Projects - Call for Artist & Videographers

The [Arts Council for Long Beach](#) has launched the Cambodia Town Mural Project, an initiative that will install up to nine public art murals along Anaheim Street between Long Beach Blvd. and Junipero Ave. by Summer 2017. We are currently looking for Mural Artists and Videographers for this project. All videographers and artists are invited to apply, regardless of geographic location. And Finally

Old Fire Station No. 5 on Anaheim Street

In last week's newsletter, we featured vintage photos of the Anaheim Street parade that celebrated the opening of Fire Station No. 5 in 1948. That prompted a few questions as to where the fire station was located. The station was at 3500 E. Anaheim at the SE corner of Anaheim and Newport. However, the building is still in use today, but it's for a slightly different purpose as illustrated in the photo below.
